

## Art and Design: Curriculum Overview

At Wigginton Primary school, we offer a high-quality art education enabling children to confidently explore ideas and record their experiences. Children will become proficient in drawing, painting, sculpture and other art and design techniques. Children will be taught to evaluate creative works and take inspiration from great artists, craft makers and designers. Our aim is to engage, inspire and challenge all pupils in art and design.

### EYFS

Expressive arts and design is one of the seven areas of the Early Years Foundation Stage and is used to develop a child's imagination, creativity and their ability to use media and materials. All these approaches to expressive arts help children to represent and understand their own feelings and ideas.

### Key Stage 1

In KS1 children will use drawing, painting and sculpture to develop and share their ideas, experiences and imagination. They will learn about the work of a range of artists, craft makers and designers. Children will begin to record ideas and starting points for their work using sketch books.

### Key Stage 2

In KS2 children create sketchbooks to record their observations and use them to revisit and review ideas. They will improve the mastery of art and design techniques including: drawing, painting and sculpture with a range of materials. They will learn about great artists, architects and designers in history.

In order to provide an exciting and relevant art curriculum, we aim to give children opportunities to apply and practise their art skills over a range of subjects.
